Strong in their endeava future where the battle must be ble home; but, instead, they waste fought by these children though they in riotous living, and when the draw are but poorly provided for the con- summons comes to lay aside there la test. Under these circumstances the bers and prepare for the inevitable learning of a good trade is profitable for every boy in the country. In

Prussia it is made imperative on every last buried at the expense of the un family to put the sons out as approntices. Neither prince nor peasant is
exempt, and in future life, no matter
what profession may be adopted, there
is a feeling of security, a knowledge
that if by reason of weakening health,

The journeymen are not alone a or for other reasons, it may not be safe to pursue his profession there is still left his trade by which he can always honestly live. Circumstances Many a man whose talents fit him t always honestly live. Circumstances are exceedingly varied that make it at least desirable that a person should gain a livelihood by means differing from his first choice. If now he is capable of farming or of engineering as well as preaching; if he can mend a shoe as well as he can prescribe for diseased bodies, or if he can tan a hide as well as he can hunt up a case, he is not in danger of becoming a

he is not in danger of becoming a raise ourselves and those dearest to the paper. He can have his independence and manhood, as well as his so many of our bravest and true health and income. Even for persons with ample means the knowledge of a good trade is by no means to be desons effort? Let us not wait till ano ons effort? ised. er new year to "turn over a new led. The fact is that the education that but begin now in an earnest, manly contains the apprentice gets would be an admirable complement to that of the friends! and let there be no relaxation

collegian. It would give him certain in the work until all shall win at elements of culture, and even mental discipline, that he is not certain of Victor."—Chivago Electrotyper. getting from Cicero or from Euclid. It will be likely to teach him modesty How to DIMINISH TAXES.-Kee and give him practical views of life, as well as toughen his sinews for intellectual struggles. On the other haut out all manures; attend to you hand, this keeping the professions and trades in co-operative union, prevents that tendency to look down on an honest avocation. The man who squarely earns his living must be looked upon as an honorable man, while there is no person on earth more helpless than one raised in the habits of ease and luxury when the means of supplying his wants are no longer at ease and luxury when the means of supplying his wants are no longer at his command. His habits are fixed. He is incapable, in ninety-nine cases out of a hundred, of making an hosest living. He can not teach school, because his information is not sufficiently accurate, and he can not undergo a drudgery worse to one of his independent habits than starvation itself. On the other hand how many men do we find at the very head of their professions who began lite as mechanics?

markets, and sell when the best price prevail, and in order to do this take good paper, study it and watch the crop reports. Do not be deceived by the plausible showing of speculators Many a farmer has lost two thirds o his net profits by heeding the figure of sharp fellows who have the farmers of this State.

Try to manage so as to have ready

Boston demonstrated to him the un-pleasant fact that situations were about as scarce in that city as in this; and, to make matters worse, the father of the young man's inamorata, last February, perceiving what was in the wind, and not relishing a poor impecunious do-nothing for a son-in-law, unceremoniously forbid him the house, and requested that all further communication between the lovers should nication between the lovers should very corrupt government.

We need not call over the long cata-logue of men now living in our own the year. This will save from ten to logue of men now living in our own country, beginning with Grant, the tanner, and Johnson, the tailor. It is enough to say there are many honored preachers, farmers, lawyers, who are as well, shoemakers, finners, carpenters or coopers.—Lexington (Ky.) Gathery, thousand in each is much better than the country of the say that the year. This will save from ten to the year. This will save from ten to the year. This will save from ten to the year. This will save from the ten to prechase and heavy tax. Adopt the English plan and have a fixed working capital. Fix-thousand dollars in land and five thousand in each is much better than the year. This will save from ten to the year. This will save from the year. This year is the year. Thi
